

Mobile App End User License Agreement Terms and Conditions

Ring-U LLC, a Chattanooga Tennessee USA based Telecom Services company has licensed Acrobits Cloud Softphone, a provider of "white label" VoIP Softphones for telecom companies to work with their systems.

The Cloud Softphone Application, once installed on a mobile device and configured by QR Code or Login and Password is tied to a customers Ring-U LLC phone system and a specific extension, automatically. The user must have an active Ring-U LLC phone system for it to work, and is configured via <https://portal.ring-u.com>

Ring-U LLC nor AcroBits is responsible for the use and suitability of this application but will make a best effort in supporting it. Our experience with it has been excellent in most situations.

Most of the variables are under control of the phone operating system and telecom provider as well as options configured on the mobile device by the end user.
