

Call Recording

By default, **Call Recording** is **disabled**.

You will receive this screen if it has not been enabled.

Enable Call Recording

Enabling call recording costs **\$9.95 per month**.

Once enabled, the feature will be active in minutes, and will be pro-rated for your billing period.

Enabling this featured requires a USB drive plugged into the Hello Hub.

Suggested: A small (4/8/16/32 Gb) USB drive *ExFat formatted*.

(sp)(sp)Recordings are small files, and can overload the File Allocation Tables of larger drives, even though there is a lot of space left.

(sp)(sp)Recordings can be downloaded and managed from this web interface shortly after the call.

Once Enabled
