

## Hello Hub V2

At the center of every ring-u phone system is the Hello Hub.

This little box connects your phones, manages your calls, controls your phone menus, handles voicemail, and so much more.

*And it does all of this while being smaller than most of the phones it connects.*

The V2 builds on all the successes of our V1 Hub, but introduces an OLED display in place of its predecessor's 3 lights.

The OLED displays a number of helpful messages, seen in the image below.
