Our Setup Wizard begins [[https://www.ring-u.com/setup|here]].

Please remember before you begin:

1. DO NOT begin this process unless you have all of your ring-u equipment on hand and ready to install.

2. Please plug your Hello Hub into power, and your network, so that it can grab any needed updates (do this now).

3. DO NOT log into any of your phones directly, or attempt to set passwords on your phones; this will break the auto-configuration process.

4. PLEASE: Only do what this setup guide asks you to do when it asks you to do it.
