Setup Wizard

Go to the setup wizardhere.

Please remember before you begin:

- **1. DO NOT** begin this process unless you have all of your ring-u equipment on hand and ready to install.
- **2. Please** plug your Hello Hub into power, and to your network, so that it can grab any needed updates now.
- **3. DO NOT** log into any of your phones directly or attempt to set passwords on your phones. This will break the auto-configuration process.
- 4. PLEASE: Only do what this setup guide asks you to do when it asks you to do it.
