Caller ID

Caller ID is a 3 part puzzle:

1. National Database (ring-u does this part for you)
2. Apple Database
3. Google Database

It is **VITAL** that you complete the your Apple and Google business listings or your Caller ID will not function/display correctly for all parties.
Make sure your business listings include all the phone numbers on your Dashboard.
The ring-u administered Caller ID can be edited by you at Numbers
