Zoiper Softphone Configuration

Prerequisites

- Download Zoiper Lite (Free) or Zoiper (Paid). The free version is excellent for most users.
- Understand that you have less than 10 minutes to scan the QR code from your ring-u portal from the time it is generated.

Also worth mentioning before you begin: Zoiper is easier on your phone's battery than Grandstream Wave, but offers you service buy-ups frequently upon startup.

Step 1 - Add an Extension in the Portal

Go to: Configuration > Extensions and **Add an Extension**.
Select "Zoiper."
